

Designer shoes made by hand in Italy
according to the principles of
sustainability and durability

Leather Lane is a women's shoes brand whose mission is to combine the quality essence of the high-end Italian craftsmanship with an elegant, minimal and North European allure.

We care to realize a product that is stylish, modern yet wearable and appealing to young women, also internationally – all of our shoes reflect the trends of our era turning them into classics.

Craftsmanship and sustainability

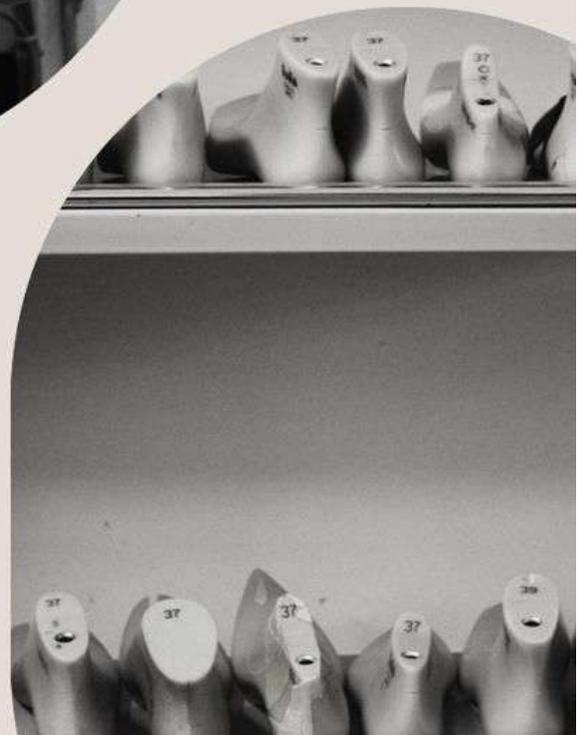

Our Values

All of the Leather Lane shoes are thoroughly handmade in Italy. The whole manufacturing process takes place in the Campania region, renowned for a shoe industry tradition which goes back hundreds of years and that as of today is housing production to some world known luxury brands.

We use only vegetable tanned leather, sourced from certified suppliers located just a few kilometers away from where we manufacture our shoes.

Wearing a pair of Leather Lane over the years will always feel like the first time.

Regular fit, Runs true to size

A woman is shown from the waist down, wearing a long-sleeved, knee-length burgundy dress with a subtle pleated detail down the center. A colorful, patterned scarf is draped around her neck. She is wearing matching burgundy patent leather Mary Jane pumps. She stands on a floor made of irregular mosaic tiles in shades of grey, white, and brown. In the background, there is a white stone balustrade with ornate carvings and a black metal handrail. The lighting is soft, highlighting the texture of the dress and the sheen of the shoes.

A woman is sitting on a dark metal chair outdoors. She is wearing black, high-heeled, ankle boots with a pointed toe and a thin stiletto heel. The boots are made of a smooth, black material, likely lambskin. She is also wearing a black top. The background features a large, terracotta-colored planter box with green plants, and the ground is paved with light blue square tiles. The overall scene is bright and sunny.
